MP, India | [github.com/rishabvsnv](#) | [linkedin.com/in/rishab-vaishnav](#)

PROFESSIONAL SUMMARY

Mobile Product Engineer with experience building production-ready Flutter applications using REST APIs, Riverpod, and scalable architecture patterns. Skilled in backend integration, state management, caching, performance optimization, and reliable mobile application development.

WORK EXPERIENCE

Flutter Developer — MySchoolio Jan 2025 – Present
Neemuch, India · Full-time

- Developed modular reusable Flutter UI components improving development efficiency.
- Integrated and optimized 20+ REST API endpoints with caching and session refresh handling.
- Implemented Riverpod-based state management reducing stale authentication state issues.
- Improved app reliability through offline handling and resilient network error management.

Technologies: Flutter, Riverpod, REST APIs

Flutter Developer — easySIM (OCEAN GROUP)

Oct 2024 – Dec 2024
Neemuch, India · Contract

- Developed a mobile application for SIM-related service management.
- Integrated backend APIs and developed responsive Flutter UI components.
- Implemented structured architecture and reliable error handling.

Technologies: Flutter, REST APIs

Flutter Developer — Dollorinfotech Pvt Ltd

Jul 2024 – Sep 2024
Neemuch, MP, India · Full-time

- Developed Dolfin, a Flutter-based customer ledger app similar to Khatabook.
- Built core modules: customer list, transactions, debit/credit, balances, search and filtering.
- Integrated REST APIs and handled real-world network scenarios in UI.
- Implemented validations, reusable components, and performance optimizations.

Technologies: Flutter, REST APIs

Frontend Engineer — OKLABS Feb 2024 – Jul 2024
Neemuch, MP, India · Full-time

- Developed responsive UI components using HTML, CSS, Bootstrap, and JavaScript.
- Integrated REST APIs with proper UI state handling.
- Improved session handling and state refresh during logout and login flows.
- Followed a service-layer architecture to improve frontend maintainability.

Technologies: HTML, CSS, Bootstrap, JavaScript

EDUCATION

Bachelor of Computer Application (BCA), Gyanodaya
Group of Management & Technology (Neemuch, India)
Percentage: 71.91%
2024 – 2026

SKILLS & PROFICIENCIES

Core Development: Flutter UI (Material Design), Dart, Riverpod, Ionic Framework (React), REST APIs, JSON Parsing

Architecture & Tools: Service-Layer Architecture, Clean Architecture, Supabase, Strapi, WordPress, Caching, Git
